

Q.1 M.C.Q

1. which of these is not a natural resource ?

- (a) wood (b) plastic (c) wool (d) silk

2. which of these natural resources is found in limited amounts ?

- (a) iron (b) air (c) plants (d) soil

3 which of these animals is found only in the Gir forest of gujrat?

- (a) tigers (b) bears (c) cheetahs (d) lions

4 which of these animals was once found in many part of india?

- (a) zebras (b) penguins (c) cheetahs (d) koal bears

5 who owns forests in india?

- (a) people (b) government (c) police (d) private agencies

6 a simple machine that consist of fulcum is

- (a) a lever (b) an inclined plane (c) a wedge (d) a pulley

7 a machine made of two or more simple machines is called a

- (a) wheel and axle (b) wedge (c) pulley (d) complex machine

8 an axe is a

- (a) wedge (b) pulley (c) wheel and axle (d) lever

9 a simple machine consisting of a slanting flat slope that helps in the movement of heavy object is

- (a) a lever (b) an inclined plane (c) a wedge (d) a screw

10 a simple machine that can be used to fix two pices of wood together is

- (a) a screw (b) a wheel and axle (c) a pulley (d) an inclined plane

11 a nutcracker is

- (a) a pulley (b) a inclined plane (c) a wedge (d) a lever

12 the outermost part of a seed is called the

- (a) seed leaf (b) seed coat (c) seeding (d) shoot

13 plants that produce seeds with two cotyledons are called

(a) monocotyledons (b) tetracotyledons (c) dicotyledons (d) polycotyledons

14 when a seed germinates, the first part to grow is the

(a) radical (b) shoot (c) branch (d) leaf

15 new fern plants grow from

(a) seeds (b) spores (c) cones (d) leaves

16 the baby plants inside the seed is also called the

(a) seed leaf (b) embryo (c) cutting (d) seedling

17 seeds of lady's finger plants are dispersed by

(a) wind (b) water (c) explosion (d) animals

18 germs live

(a) only in water (b) only in the air (c) everywhere (d) only in food

19 cancer is a

(a) non-communicable disease (b) communicable disease (c) deficiency disease (d) water-borne disease

20 lack of iron in the blood causes

(a) goiter (b) anaemia (c) night blindness (d) scurvy
