

VIDYA BHARATI SCHOOL
OLYMPIAD WORKSHEET: JANUARY 2017
GRADE: VI
SUBJECT: SCIENCE

MULTIPLE CHOICE QUESTIONS

- 1) The change of water into water vapor is called
 - a) Evaporation
 - b) Relaxation
 - c) condensation
 - d) Sublimation
- 2) The collection of rain water and store for later use is known as
 - a) Green revolution
 - b) Rain water harvesting
 - c) White revolution
 - d) None of these
- 3) Excessive rain is called
 - a) Draught
 - b) Earthquake
 - c) Floods
 - d) Clouds
- 4) The main source of water is
 - a) The lake
 - b) The rain
 - c) The ocean
 - d) The sea
- 5) When the water day celebrated all over the the world
 - a) 1 st may
 - b) 8 th march
 - c) 22 nd march
 - d) 14 th april
- 6) We should save every drop of water as it is
 - a) Essence of life
 - b) Costly
 - c) cheap
 - d) not of essential of life
- 7) The solid form of water
 - a) Steam
 - b) Smoke
 - c) ice
 - d) fog
- 8) The circulation of water between ocean and land
 - a) Water cycle
 - b) Nitrogen cycle
 - c) carbon cycle
 - d) none of these
- 9) When the ice is poured into tumbler few water droplets appeared at the outer surfacr of tumbler due to the
 - a) Evaporation
 - b) Sublimation
 - c) condensation
 - d) none of these
- 10) The material that attracts iron is
 - a) Rubber
 - b) Glass
 - c) silver
 - d) magnet
- 11) How many poles of magnet dose have
 - a) Two
 - b) Four
 - c) three
 - d) five
- 12) When a magnet is suspended freely in air with the help of string, it aligns itself in
 - a) South west
 - b) East West
 - c) North East
 - d) North South

- 13) Which of the following is a non-magnetic material?
a) Iron
b) Cobalt
c) Nickel
d) wood
- 14) The magnet was discovered by
a) C V Raman
b) Magnes
c) J C Bose
d) Newton
- 15) The like pole in a magnet
a) Repel
b) Attract
c) Contract
d) Expend
- 16) A magnet loses its magnetic property by
a) Using
b) Hammering
c) Storing
d) Cleaning
- 17) A steel blade can be magnetized with the help of a magnet by
a) Rubbing
b) Dropping
c) Hammering
d) Heating
- 18) The two ends of a bar magnet are called
a) Points
b) Poles
c) Edges
d) Ends
- 19) A magnetic compass tells us about
a) Distance travelled
b) Direction
c) Speed
d) Motion
- 20) Which of the following is a natural magnet
a) Iron
b) Nickel
c) Copper
d) Magnetite
