

- a) Mercury
c) saturn
- b) mars
d) earth
- 10** Sound travels fastest in
a) solids
c) gases
- b) liquids
d) All medium
- 11** Ball bearings are used to
a) Decrease friction
c) Increase friction
- b) Increase sound
d) Decrease weight
- 12** Rubber Is made from
a) Cassava
c) amla
- b) coconut
d) latex
- 13** The Metal found in liquid state is
a) Iron
c) Mercury
- b) Aluminium
d) Gold
- 14** The spring balance records
a) Force applied
c) Work done
- b) Gravitation
d) pressure
- 15** The colour of gas flame is
a) red
c) yellow
- b) orange
d) blue
- 16** The zygote give rise to
a) Sperm
c) foetus
- b) embryo
d) ovum
- 17** Exchange of gases in plants takes place through
a) stomata
c) bud
- b) xylem
d) phloem
- 18** The metamorphosis in frogs is controlled by
a) insulin
c) adrenalin
- b) thyroxine
d) None of the above
- 19** Edward Jenner discovered vaccine for

- a) Small pox
- c) cholera

- b) tuberculosis
- d) polio

20 Common cold is spread through

- a) air
- c) water

- b) Direct contact
- d) animals
