“WORKSHOP ON TIME MANAGEMENT ”

“A well organized life finds time for everything.

Always settle in advance that which you have set for yourself .”

Every individual is running to catch up with things that he wishes to do but cannot do it as time is what we have the most but we use it in the worst possible way. We talk of time management and know that time is the scarcest resource and unless it is managed nothing else can be managed.

With such a scenario where paucity of time is one factor everyone is complaining about , VBS organized a workshop on time management on 1st Aug 2015 in the school premises for its staff to provide direction to them to meet challenges of lack of time and make each and every staff member “time management savy”

The Resource Person, Mr. Nishant Bansal, through various activities made the teacher participants realise that time management is life management. The Resource person shared his expertise and stressed that all time management begins with planning, streamlining and organizing. He also talked of 3P’s of time- plan, prioritize & perform, 80-20 rule, how to overcome procrastination. how to be SMART while framing goals and practically use the art of delegation of work for achieving momentous results.

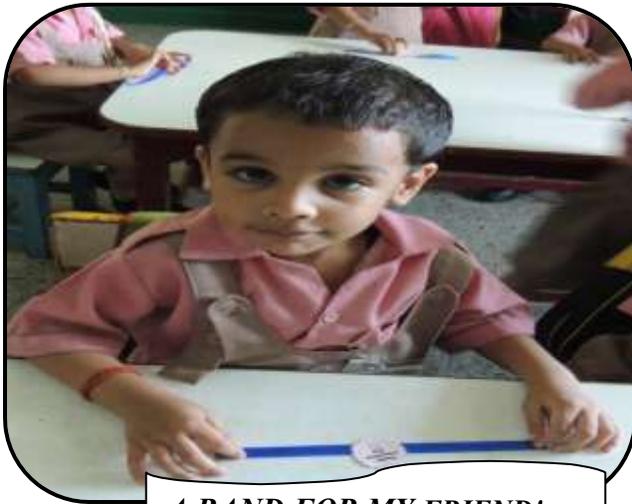

The workshop was highly innovative, tremendously engaging and a great learning experience for all. The implementation of techniques discussed during the workshop will definitely help the teachers to be “Smart Time Managers” The workshop concluded with the message that lost wealth may be regained by hard work , lost knowledge can be regained by dedicated study but time lost is lost forever so until we can manage time we can manage nothing else.
