## INTER CLASS COMPETITION

### SHOW & TELL

### GRADE- I TO III

*“I am part of a teaching-learning process which is creative, innovative and collaborative”*

At THE VBS, co-curricular activities play an integral part in allowing a switch over from absorption of information while learning during academic sessions and create a safe space to relax, interact, collaborate, think out of the box and express uninhibitedly, thus contributing towards a holistic growth of students. Keeping this in mind, a show & Tell was conducted on **Tuesday, 1September, 2015**. The activity stimulated the imagination of the students and brought out the creative genius in them. The students came well prepared for the competition with colourful and imaginative props and participated with loads of enthusiasm. They won accolades for their speaking skills as well as the amazing levels of confidence displayed by them. It was wonderful to see the students perform on the stage with so much of confidence.

**Expressing uninhibitedly!**

**Skills are gleaned!!**

## JANAMASHTAMI CELEBRATION

### PRE PRIMARY

India is a great country with diverse culture and it has a great impact on the life of each child. We at Vidya Bharati believe in providing a platform to our students where they have hands on experience with the activities depicting culture and heritage of our country. We put in our sincere efforts to inculcate values and ethics in a child from the very beginning as they help in the making of a human being before them. Keeping this in mind, We at VBS celebrated Janamashtami with our tiny tots on **3<sup>rd</sup> September 2015**. The students presented a tableau based on the life of Lord Krishna and played various characters. Students dressed up as Radha and Krishna, wearing wonderful smiles on their faces. Special matkee was prepared. It was broken by Kanha and his friends, The day ended with the screening of the film 'BAL KRISHNA'. The movie transported the children into the world of Lord Krishna childhood, tiny tots emulated the good qualities of little Krishna and imagination gave them a welcome break from their daily schedule. Children thoroughly enjoyed the day and carried home a lot of information about diverse culture of our country. It was a great learning experience for them!

*Beyond the conventional textbook teaching!!*

*I am part of a teaching-learning process which is creative!!*

The childhood of Krishna!

**Tiny Tots Floored The Audience!!**

***WHAT A DEVINE PERFORMANCE!!***

## Teachers' Day celebration at Vidya Bharati School

Teachers' Day is dedicated to teachers, who play a prominent role in the life of their students. The teachers act as the guide for life, show the path towards success and enrich the personality of their disciples by imparting ethical and academic knowledge. They bring out the untamed talents of their students and sharpen it in order to bring out the best results. There is no doubt about the fact that it takes an incredible amount of dedication, knowledge and patience to teach a class, full of present day students, who are sharp, inquisitive and real go getters.

Enthusiasm and festivity marked the Teachers' Day at **Vidya Bharati School** which was celebrated on 4<sup>th</sup> September 2015. The day had an emotional and recreational touch. A special assembly was organized for Teachers and students. Students were all geared up to give Scintillating performances in front of their facilitators. The programme started with this beautiful quote

“Teaching is the profession that teaches all the other professions.”

Our Singing talent took the enthusiasm to the next level with their vocals and clarity. Primary students showed their gratitude by holding placards, with beautiful messages for teachers. The teachers were overwhelmed to see superb dance performances by middle group students. Teachers and Non teaching staff were called on the stage and were presented with souvenirs by our principal Ms Meenakshi Zarabi. She lauded the contribution of teachers in the over-all development of students.

An after school programme was also organized in which teachers participated with verve and vivaciousness. Melodious singing performances by teachers, games and an

anchoring full of wit and humour added energy and excitement to the programme .  
Teachers were presented gifts by our Honourable Principal which was followed by lunch. All in all, it was celebration mode for everyone!

**A tribute- on his birthday**

**VBS Teachers-Shapers of future**

**Gratitude by smart disciples**

**Amazing dance performance**

**A rejuvenating performance**

**Principal Invigorating VBS Family**

## SENSITIZATION OF HEALTH & HYGIENE

A workshop on managing menstruation was organized by the school as a part of education program for the girls of grade (VI –IX) on 7 September, 2015 with an objective of enhancing their knowledge and understanding about managing menstruation. Students were shown PPT on growth in girls, menstruation, Female reproductive system and hygiene management. Student's curiosity was brought forward by the question and answer session. This was an extremely informative workshop for girls.

# Training-Workshop on 21<sup>st</sup> Century Education

## Neo-Robos Redefining Education

### Date and Venue

The training-workshop took place on 10 September 2015 at Physics Lab in Vidya Bharati School. The training team arrived at the venue before time in order to meet for fine-tuning of the agenda and coordination of work.

**Time** – 12:00 pm to 1:30 pm

### Training Team

The members of the training team were-  
Mr. Nishant Jain (Orator) – Director of Neo-Robos  
Mr. Manish, Mr. Survesh, Ms. Rashika, Ms. Tripti (Assistants) – Lead trainers and marketing persons.

### Agenda

- 1) Opening and introduction about 21<sup>st</sup> century learning skills.
- 2) Concept of progressive learning.
- 3) Product demonstration for various classes.

### Participants

Science, Math & Computer Teachers.

### The Training-Workshop

- The training-workshop opened with an activity (**Hands know more than mind**) that required the participants to be divided into three groups. The little bag of **logo bricks** were given to make a duck. The above activity concluded that no two ducks were similar.
- Trainers then discussed concept of robotics beginning with an exercise where participants were asked to speak three lines that came to their mind upon hearing the word '**robotics**'
- Mr. Nishant presented two videos –  
**1) Learning today, Leading tomorrow** – 21<sup>st</sup> century learning skills include progressive learning and the 4 C's of education (communication, critical thinking, creativity and collaboration)  
**2) Stem Education** – It showed that stem education is a link of computer science, science, Mathematics, Language, technology and engineering
- **Hands on Activity – Spinning top-** Participants were divided into three groups. They connected logo bricks to construct a top spin. They also modified top spin to increase time of spin. Later on they were asked to make other two types of spins. Idea behind the activity was 4 C's structure (connect, construct, contemplate, continue) by stem education.

### Product Demonstration:

- 1) **Fan with gear box** (For class II) - Study of multiplication in real life
- 2) **Crazy Floor Car with gear box** (For class III-V) – To construct a car and to increase and decrease speed of car with gear box. To study relation of velocity and power.
- 3) **Hungry Alligator** (For class VI) – To construct an alligator which can detect motion of anything around it, send signal to computer and then snatch the thing. To study change in environment.
- 4) **Snap Rover** (For class VII-VIII) – Programming for rotation of wheels of rover depending on circumference of wheel. To study that - properties of friction depend on nature of surface.
- 5) **Explorer using NXT** (For class IX) – Moving a car by using ultrasonic sensors and find the longest path to move. To study programming and looping of sensor.
- 6) **Fork lift model and Colour Sorter** (For class X) – To lift things in warehouses and sorting of things by colour sensors in packaging industries.
- 7) **Light Sensor circuit** ( For class XI-XII) – To make street light controller which glows below visible region light and stops working at the day time

### **Outcomes of the Training-Workshop**

The participants agreed on the following –

1. To teach fundamentals of science with hand on practical.
2. To adopt project based learning instead of fundamental based learning.
3. To unfold the true potential of a child.

## Fight the Bite

As a socially responsible institution Vidya Bharati School always stood for the well being of society. Citing the increasing cases of Dengue in the area the school had organized a Special Dengue Awareness Assembly on 24<sup>th</sup> September 2015. Under this initiative representatives from Dabur Odomos visited the school. They aimed at equipping the students with knowledge about Dengue and turning them into '**Dengue Fighters**'. They seek to educate students, teachers as well as parents (through their children) about effective prevention from Dengue.

A special audio visual was shown to spread the message among kids and educate them about how mosquitoes breed and the effective measures to be taken to prevent this.

The healthcare professionals shared with the students about all aspects of mosquitoes and the deadly mosquito-borne disease Dengue. They made the presentation more interactive and interesting by asking questions from the scholars. They were asked how they could protect themselves against mosquitoes. Their replies ranged from wearing full-sleeved clothes to preventing water stagnation. The winners got prizes. They informed further that contrary to popular perception, Dengue is spread by the Aedes mosquito that is more active during the day-time. Children, when they venture out to play in gardens or even while in school, are at risk of being bitten by these mosquitoes.

They also spoke about how Odomos is a good option against mosquitoes.

To involve the parents of the children, the presenters distributed leaflets containing information on how Odomos helps fight mosquitoes and a contest for the parents, based on which five lucky entries will be selected and awarded.

All in all it was a useful and informative presentation which motivated the students to have **Zero Tolerance Against Mosquitoes**.

**Do the Mozzie Wipeout**

**an aware scholar**

**Active Listeners**

**ODOMOS generating awareness**

## WE ARE IN THE NEWS

WEDNESDAY, SEPTEMBER 9, 2015 | ADVERTORIAL, ENTERTAINMENT INDUSTRY PROMOTIONAL FEATURE

OF INDIA

Vidya Bharati School, Ghaziabad celebrated its investiture ceremony recently. A 50 member school cabinet contingent was sworn-in by school principal Meenakshi Zarabi in a glittering ceremony. The occasion was graced by Laif Garg, general secretary; Priyanka Lunia, treasurer and Vinod Sharma, academic advisor. Mr Garg congratulated the cabinet members but at the same time, cautioned the students not to be com-

Vidya Bharati School, Ghaziabad

placent but be the torch bearers of responsibility with elian. The occasion was presented with scintillating dance and song performances where the youthful responsibility was roped in with independence of speech and expression but not at the expense of values and customs. The principal lauded the students for their stupendous performance. The event was appreciated by non-stop applause of the parents.

## THANK YOU
