The programme ended on a very positive & joyous note when all the staff members pledged to take upcoming challenges with great zeal and dedication and vowed to take the school to the pinnacles of success in the New Year and the years to come.

Parent – Teacher Interface becomes digital

Getting digitally connected with our benefactors, on the eve of the New Year has given VBS immense leeway of achieving, blossoming and intensifying our rapport with our beloved parents.

VBS is ever evolving itself to be at par with its contemporaries and I is relentlessly making efforts to attain excellence in all spheres. As a part of this painstaking endeavour, we have initiated system of parental digital connect through e-mails. Earlier this electronic portal was available till grade V but from 1st Jan 2017, this electronic gateway is accessible to all the parents till grade XI. A welcome message informing and inviting the parents about the same was sent to the parents of grade VI to XI at the onset of New Year 2017.

VBS is going digital and for that it is leaving no stone unturned. Therefore, the parents who do not have e-mail ids or for some reason are unable to create one; the School is creating e-mail ids for them and thus helps them to stay connected with the School.

This interactive e-mail tune-up will not only facilitate us to connect with our stake holders but also make our bonding stronger. Furthermore, it will also enable us to keep our invaluable patrons updated with the infinitesimal happenings at Vidya Bharati School.

Besides keeping the parents updated with the facets related to the holistic development of their ward, this world of digital connect will also keep the parents linked by subscribing to the mail for circulars, newsletters, VEPs, assignments & any other related information.

This platform of electronic mail also provides an opportunity to the parents to post their concern/grievances to the concerned people according to their area of responsibility by following the set procedure. If the concerns go unattended then the parents can even contact the Principal through the electronic portal.

Thus this embryonic association will nurture and flourish into a healthy association which will work as a sturdy team for the benefit of students and betterment and upliftment of VBS.

Thank You...
