स्वरचित या संकलित 8 --10 काव्य पंक्तियां लिखें

MATHEMATICS

- Q1. During lockdown period suppose you had made 40 cookies with your mother. You gave $\frac{1}{2}$ part of cookies to your brother, $\frac{1}{2}$ part of remaining cookies to your sister. How many cookies were left with you? You gave one fifth of left cookies to your friend. How many cookies did your friend get?
- Q2. As you all enjoy with your family members in summer holidays, play a board game like Snakes and Ladders with your brother/sister. In this game, you have to make some rules : give +2 points, if you move up to the top of the ladder and -2 points, if you slide down to the bottom of the snake. After the game is over, add up yours and your partner's points and note down. Write the final scores of both players. Who won the game and by how much points?
- Q3. Do the revision work of Ch-1 and Ch-2 in rough notebook.
- Q4. **ACTIVITY:** To convert fraction into decimal.
Material Required: Two colored papers, scissors, pencil, ruler, compass, protractor. Watch the activity from the given link and do this activity.

Link of Activity: <https://youtu.be/zi6X8-fk9DE>

SCIENCE

Make the shapes of our four types of teeth given on pg 22 of our Science book, using kneaded flour. Keep them on a sheet. Write their names below them as in book. Take a pic (photo). Send this pic on personal number of your science teacher with your full name, class, section and complete roll number as 7101, 7201 or 7301.

These four types are incisor, canine, premolar and molar.
